FACTORS INFLUENCING INDIA INNOVATION STORY

- Booming Startup Ecosystem
- Inherent Talent Pool
- Government Initiatives
- Growing Consumer Market
- Strong Digital Infrastructure
- Strong Funding Ecosystem

India's position in the Global Innovation Index* has improved to 40th rank in 2023 from 81st in 2015. Due to the above favorable tailwinds, we believe India is currently at the cusp of an innovation cycle.

INVESTMENT STRATEGY

- 1 Product / Service Innovators** : Companies that develop new products or services or significantly invest in R&D for new innovations. They challenge existing markets or create entirely new categories.
- 2 Process Innovators** : Companies that innovate new processes, potentially disrupting existing business models and gaining market share through technological and process advancements.
- 3 Innovation Adaptors** : Incumbent companies that adapt to innovative business models, products, or services within their industry, showing agility in response to emergent trends. These adaptive innovators may not necessarily overhaul their entire business model but exhibit innovative strategies in specific segments or verticals that has potential to meaningfully impact the business.

Each category presents opportunities and risks, which will guide investment decisions. For detailed investment strategy please refer Scheme Information Document carefully.

PORTFOLIO CONSTRUCTION APPROACH
